

What President Buchanan has Done

What President Buchanan has done in defense of the people, as expressed thro' their accredited representatives, is forcibly put the following extract from a Hartford paper:

When Connecticut repudiated Lewis Toney, Mr. Buchanan took him into the Cabinet.

When Michigan repudiated Lewis Cass, Mr. Buchanan took him from the Cabinet.

When old Berk repudiated John Quincy Jones, Mr. Buchanan rewarded him with a mission to Austria.

When Indiana repudiated John Pettit, Mr. Buchanan made him Chief Justice of Kansas.

When Iowa repudiated George W. Jones, Mr. Buchanan offered him a mission to Brazil.

When Iowa repudiated Augustus Caesar Dodge, he was made Minister to Spain.

When the pro-slavery party failed to establish slavery in Oregon, Mr. Buchanan made its leader the United States District Judge.

We would add, when the 11th Congressional District of the Ohio Democracy failed to send Billy Medill to Congress James Buchanan gave him a fat office at Washington.

Mr. SUMNER ON THE WAR IN EUROPE—In a private letter addressed to the editor of the Worcester Spy by Charles Sumner, and dated at Paris, May 31st, he says of his health :

"At last I feel happy in health, which, if not entirely assured, yet is such as to allow me to walk naturally, unconsciously and without pain, unless when I strike into my old gait, which you may remember was the fastest of the fast." "I hope I have not lost this, so that I cannot get it back again. One must have been for three years an invalid to know the happiness in my new found strength."

Mr. Sumner speaks as follows of the present war in Italy:

"This is a great historic movement; there has been nothing like it since 1815. Many here think that no good can come to Italy from the Emperor Napoleon. I am not of that opinion, although I join in the distress which prevails with regard to him. But the hour seems to have struck when Italy is to be free, and he is an instrument by which it is to be accomplished. At Turin, where I passed several days, all were confident of the result. They expect the Austrians to be driven out of Italy this summer."

DEATH OF A DISTINGUISHED INVESTIGATOR—Among our recent notices of deaths we find that of Walter Hunt. For more than forty years he has been known as an experimenter in the arts. Whether in mechanical inventions, chemistry, electricity, or metallic compositions, he was always at home; and probably in all, he has tried more experiments than any other inventor. He originated the sewing machine, spinning flax by machinery, the first nail machine, the first machine for cutting bread by one operation, placing flax in bags for sale of bone and fiber, a method of constructing docks by congruity, preparing a paper pulp so as to form books by one operation, the vapor bath, the ball known as the Mincie ball for billiards, and many improvements in firearms, printing by rollers instead of balls, and so on. Other things out space will not admit of details. Walter Hunt, like most inventors, devoted his life to his friends rather than to himself; was liberal to a fault, and none knew him but to love him; he struggled with that monster, the dollar, all his life, in hopes of making it yet his numberless experiments kept him poor. Yet his life of exertion has benefited the whole world, and his day as most inventive at the very moment he anticipated his ease. He, however, lived to the ripe age of 63 years in full vigor until the last four days of his life.—*N. Y. Tribune*.

HUNTINGTON'S GERMAN BUTTERS—THEY ARE ENTIRELY VEGETABLE, and free from Acidic Stomachic, and all injurious ingredients, agreeable to the taste and smell, mild in their operation will expel all morbid excretion from the body, give Bloom to the skin, and restore all vital vigor to the frame.

They will cure DYSENTERIA.

They will cure NERVOUS DEBILITY.

They will cure LIVER COMPLAINT.

They will cure JAUNDICE.

They will cure DISEASE OF THE KIDNEYS.

They will cure CONSTITUTION.

They will cure PILES.

They will cure HEARTBURN.

They will cure FLUTTERING OF THE HEART.

They are prepared by Dr. G. M. JACKSON, 149 Arch Street, Philadelphia, Pa., and sold by Importers and Contractors in every town and village in the United States, Canada, West Indies and South America, at 15 cents per pound.

438-2

Nature is the Great Physician—This is now admitted by the medical profession as a fundamental principle of treating sickness. It is surely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to heal the disease. The great sin, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BUTTERS, which operate to give fresh vitality to all the organs of the body. The effect of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the Butters soon feels as if he had taken a new lease of life and as he continues the use of the article, he is ever-ready to find the streams of health coursing through his frame. Let all those whose flesh the bloom has departed go to Dr. Hostetter's Celebrated Butters, a trial.

Goldsmith and Deacons generally, everywhere.

See advertisement in another column.—420

NAPOLION HUNTING CO., O. July 7, 1858.

DR. W. ROBACE—*Dear Sir*—For the benefit of suffering humanity, permit us to announce through the columns of your Circular, the surprising properties of your Scandinavian Blood Purifier and Blood Pills, which are a sure cure for Indigestion and Liver Complaint.

We have several persons in town, who have been suffering with Liver Complaint and Indigestion, and notwithstanding that we have as good physicians as can be found in Northern Ohio, yet the disease has not been removed.

Many laborers and mechanics, who are the present thrown out of employment, —We are informed that the distilleries will go into the hands of Miles Jones of Buffalo.

Many laborers, who had accumulated small competency by hard labor and economy, and had deposited their earnings, have lost all or nearly all they had, thus saved, and in consequence, considerable distress follows this failure. Many workmen are for the present thrown out of employment,—We are informed that the distilleries will go into the hands of Miles Jones of Buffalo.

GRAPe CROPS.—Prospects for a splendid grape crop are brilliant; but a few days like yesterday and the day before will produce mischief. Showers and hot sun cause mildew and rot. Having escaped the biting frost of June 5th, we are inclined to think the grape save from all other evils. Should expectations be justified, this year's product will easily compensate for last year's failure. Vintners estimate the superficial area devoted to vineyards, in this country, at upwards of 2,000 acres, and some are sanguine that the average product will be 400 gallons of wine to the acre, or an aggregate of 80,000 gallons. (last year it was but 17,500.) At an average of \$1.25 per gallon for the new wine, the crop would be worth \$1,200,000. If the quality is superior, the value will be greatly increased, but \$1.25 per gallon is the usual average, —Cincinnati Commercial.

NARROW ESCAPE OF NAPOLEON—In his visit to the field of battle at Montebello, the Emperor Napoleon narrowly escaped being made prisoner. He had pushed on as far as Castiglione, and was observing with his telescope, the movements of the enemy between Borghello and the Portico del Sella upon the Po, when suddenly a detachment of Austrians presented themselves before him, not two hundred paces distant. Whether they had lost their way, or whether they had advanced thus far from mere hardihood, cannot be told; but it is probable that the latter supposition is correct, inasmuch as they will bring the monthly period with regularity. Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pill doing all that they represent to do.

NOTICE

They should not be used during Pregnancy, as miscarriages would certainly result therefrom.

Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box.

Price \$1. Sent by mail on enclosing \$1 to any authorized agent. Sold by our Druggist in every town in the United States.

R. B. HUTCHINS,

GENERAL AGENT FOR THE UNITED STATES,

16 Chambers St., New York.

To whom all wholesale orders should be addressed.

Sold by A. Cook, Chardon, and Wm. Fink, Cleveland.

472-1

IMPORTANT TO FEMALES—Dr. CHEESEMAN'S PILLS, prepared by CECILUS L. CHEESEMAN, M. D., NEW YORK CITY.—The combination of ingredients in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all premenstrual Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which arise from Interruption of Nature.

TO MARRIED LADIES,

Dr. Cheeseman's Pills are invaluable, as they will bring the monthly period with regularity.

Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pill doing all that they represent to do.

NOTICE

SHEEP KILLING DOGS IN GREENE COUNTY—The Xenia Torchlight, from the editor's return, ascertains that dogs have killed, during the past year, 1,269 sheep in Greene county, valued at \$2,429. The Torchlight says:

Many farmers have been compelled to forego the keeping of sheep because of the depredations committed by worthless curs. Is there no remedy for this positive evil? It has done no good to petition the Legislature. The members of that body have so far failed to enact a statute which has had any vitality. An unrelenting slaughter is the only thing which will reach the evil.

SPECIAL NOTICES.

REV. B. J. KENNEDY, of Painesville,

is expected to preach in the M. E. Church in this village, next Sabbath, at the usual hour of public worship.

R. N. Chardon, June 24, 1859.

472-1
